

WE MOVE YOUR BUSINESS

Electric Counterbalanced Trucks Capacity 3500 - 5000 kg E35, E40, E45, E50

Series 388

Safety

The protective overhead guard forms a strong and completely enclosed protective zone providing optimum structural integrity, safety and protection for the operator. The top mounted tilt cylinders provide seamless, smooth control of the tilt movements for excellent load stability in all operating conditions. This unique design also enables slimmer mast profiles to be fitted for outstanding visibility.

Performance

One would expect a high performance truck to have a high performance traction system – and that is exactly what the Linde compact drive axle and lift system delivers. Powerful motors and intelligent electronic control form an impressive power pack to deliver the highest level of productivity.

Comfort

Consistently high levels of performance and efficiency for extended periods are only possible if the operator feels comfortable. The ergonomic layout of all the controls, the adjustability of the armrest and seat, Linde Load Control, and twin accelerator pedals provide the best possible intuitive interface between the truck and the operator.

Linde Material Handling

Linde

Reliability

An electric forklift truck depends on reliable electronic systems. The Linde electronic control system provides a high level of reliability because of its dual circuit monitoring system and the sealed aluminium housing which provides total protection for the electronics from the ingress of dust and moisture.

Productivity

Effective in operation, efficient in reducing costs: The unique Linde energy management system ensures intelligent and economical consumption of energy. Energy can also be obtained quickly utilising the optional built-in charging unit or one of the four simple and rapid battery changing methods. The result: more uptime and increased productivity.

Technical Data according to VDI 2198

Characteristics	1.1	Manufacturer	LINDE	LINDE	
	1.2	Model designation	E35/600H	E40/600H	
	1.3	Power unit	Battery	Battery	
	1.4	Operation	Seat	Seat	
	1.5	Load capacity	Q (t)	3.5	4.0
	1.6	Load centre	c (mm)	600	600
	1.8	Axle centre to fork face	x (mm)	538	548

Features

Linde compact drive axle

- Twin drive design with high performance Linde AC technology
- Optimum energy efficiency
- Maintenance-free oil-bath vane brake
- Automatic parking brake
- Electronic components housed in sealed unit for complete protection

Linde hydrostatic power steering

- Minimal physical demands on the operator
- Compact ergonomically designed steering wheel
- Linde combi steer axle for outstanding manoeuvrability

Linde twin accelerator control

- Seamless, rapid reversing without repositioning the feet
- Short pedal travel
- Fatigue-free working
- Increased throughput and performance

Linde Load Control

- Small tactile joystick integrated in an adjustable armrest
- Precise and effortless fingertip joystick control of all mast functions
- Safe and highly efficient load handling

Linde Dual Motor Drive

- Two powerful AC drive motors integrated in the front axle
- Seamless acceleration and variable torque characteristics
- Extremely quiet in operation

Linde operator's compartment

- Ergonomically designed for efficient, fatigue-free working
- Spacious operator's compartment with generous floor plate area
- Cushioned comfort – mast and drive axle are isolated from the chassis and cab by a unique resilient suspension system that absorbs shock loadings

Linde clearview mast design

- with top mounted tilt cylinders for seamless load control and stability
- Excellent view of load and surroundings through the robust yet slim mast profiles
- Nominal capacity retained to maximum lift heights
- High residual capacities in all applications

Linde energy management

- Optimised energy consumption
- Accurate battery condition indicator
- Simple horizontal or vertical battery changing options
- Optional built-in high frequency charger for convenience and flexibility
- Record of battery usage

Standard Equipment/Optional Equipment

Standard Equipment

Hydrostatic power steering
Linde twin accelerator pedals for all vehicle movements
Central lever (joystick control) integrated into the adjustable armrest
2 x 12 kW maintenance free AC drive motors
25 kW AC maintenance free lift motor
Different ECO modes providing the perfect combination of performance and efficiency
Graphic display of battery operating time in minutes
Automatic parking brake
Linde dual motor drive
Proportional reduction of travel speed when cornering (Linde Drive Assistant)
Seamless electronic control of all traction and hydraulic movements
Standard chassis suitable for working in ISO containers with appropriate mast
Hydraulically adjustable full suspension PVC operator's seat with armrest
Comprehensive digital instrument display

Generous storage facilities for writing materials and miscellaneous items
Superelastic tyres

Mast

Clearview standard mast 3,100 mm lift
Fork carriage width:
1,350 mm for all models
Fork length 1,000 mm

Optional Equipment

Single pedal accelerator with forward/reverse selector in the armrest
Alternative fork lengths
Alternative fork carriage widths
Integrated sideshift
Integrated fork spreader
Tilt cylinder protection
Load backrest
One, two or three additional hydraulic circuits for attachments
Polycarbonate top screen on overhead guard
Front and rear screens, wipers and tops screen
Full cab with hinged doors
Overhead guard sun blinds (front + top)
Heating (with pollen protection filter)
Radio with CD player
Fabric covered comfort seat
Super-comfort seat with air suspension, heater and backrest extension
Swivelling seat
Integrated charger unit, optionally with electrolytic circulation
Individual or single hydraulic control joystick
Working lamps with LED technology
Truck lighting with LED technology (only rear lights)

Full road lighting
Flashing beacon/rotating beacon
Audible reversing alarm
External, internal and panoramic mirror
Clipboard with LED illumination
Cold store protection
Active ventilation for battery charging
Alternative custom paintwork
Linde Fleet Management (LFM)
Alternative tyre types
Electrical socket 12 V

Other options available on request
